### ***Family-owned and operated:***

Pennco International Inc. is part of a third-generation timber family. The family owns and manages thousands of acres of quality timber. They continually look to acquire additional acreage.

### ***Excellent location:***

The Pennsylvania forests have long been recognized for the quality of the hardwood timber produced there. Pennco International is located in Southwest Pennsylvania, in the heart of the Appalachian forest.

### ***Plentiful supply:***

Good land management is a key component of any successful timber business. Pennco International recognizes this and continues to practice excellent management techniques.

### ***Species available:***

Our inventory of quality logs includes Red Oak, White Oak, Cherry, Rock Oak, Hard Maple, Soft Maple, Ash, Basswood, and Poplar.

**Hardwoods available for sale:**

Our hardwood logs include veneer and saw quality logs. Grades available are F1, F2, and F3. Logs are available with 0, 1, 2, 3, or 4 clear sides. Diameters range from eight inches and up. Lengths available are six feet and up.

**Carefully inspected:**

All of the logs we procure are carefully inspected to ensure they meet the highest standards for color, texture, size, and character as well as cleanliness.

**Pennco International Reputation**

Our company excels in quality service and responsiveness to our client's needs. We are uniquely qualified to meet the special requirements of our clients.
